(Note 3) The first interest payment date is July 31, 2024, and thereafter, interest payment dates are the last day of every 3-months and the principal repayment date. However, if such date is a non-business day, the interest payment

date shall be the immediately following business day, or if such date falls in the next month, the interest payment date shall be the immediately preceding business day. For borrowings with floating interest rates, the base interest rate applicable to the calculation period for payment of interest on any given interest payment date is the Japanese Yen TIBOR for 3 months as announced by JBA TIBOR Administration at 11 a.m. (Tokyo time, the same applies hereinafter) or at the point of time after 11 a.m. and as close to 11 a.m. as possible, on the date which is two business days prior to the immediately preceding interest payment date (or two business days before the drawdown date for the first interest payment date). However, if no interest rates are found for the corresponding interest calculation period, the base interest rate for the relevant period shall be calculated based on the method set forth in the individual term loan agreement. For Japanese Yen TIBOR announced by the JBA TIBOR Administration which is used as the base interest rate, please check with the JBA TIBOR Administration website (<https://www.jbatibor.or.jp/english/rate/>) Concerning the Debt Financing, SAR may consider fixing the interest payments by entering into interest rate swap agreements, etc.

(Note 4) Financing fees and other charges payable to the lenders are not included.

(Note 5) If a principal repayment date is not a business day, repayment shall be made on the next business day; however, if such date falls on the next month, repayment shall be made on the immediately preceding business day.

(Note 6) If certain conditions, such as advance notification in writing by SAR, are satisfied during the period between the date of execution of the Debt Financing and the principal repayment date, SAR may prepay the borrowed amounts either in whole or in part prior to maturity.
